OF EMERGENCY SERVICES

# **FIRE ACTIVITY**

## **Cal OES INLAND REGION (Continued)**

### **Beckwourth Complex, Vegetation Fire, Plumas/Lassen Counties (Continued)**

#### **Critical Infrastructure**

- 2 AT&T wireless sites may be threatened.
- Plumas-Sierra Rural Electric Cooperative has lost some fiber optic lines in the fire. These lines also serve some smaller internet providers and is causing vendor specific internet issues throughout the county.
- Plumas-Sierra Rural Electric Cooperative (PSREC) customers have power restored power in the fire area. They are conducting localized power shutoff in the Doyle area as requested by the fire IMT.
- Liberty Municipal Utility District is experiencing a system-wide outage including Susanville Rancheria EOC
  - Cal OES Tribal reached out to the IDO on assistance in sourcing generators for Susanville Rancheria.
  - As of 07/19/21 at 1205 hours, CUEA advised approximately 10,400 LMUD customers are impacted and there is no impact to the overall grid.
  - Power is in the process of being restored as of 1700 hours on 07/19/21.

#### **Missions**

- 2021-Inland-66616: The request is for two A/C Units w/ Generators. The A/C Units are scheduled to arrive at noon on 7/14/21 and be operational by end of day. Lassen shelter closed on 07/17/21 so the equipment was demobilized on 07/18/21. (Closed)
- 2021-INL-67014: Beckworth Complex Fire Lassen – Request internet for EOC and Health Center for Susanville. COMC delivered HQ-15 Kit of Sonim phones and 9 FirstNet hot spot devices, due to burned fiber optic lines in the area that has impacted their broadband services. Expected to likely be back up by Tuesday or Wednesday, when equipment can be returned.
- 2021-IREOC-67232: Lassen County MHOAC is requesting State support with oxygen supply with vendor because the local EMS system and Hospital ER are experiencing a surge with patients needing oxygen due to power outages and wildfire smoke resulting from Dixie Complex Fire. The County has depleted all local stock and there is no vendor in Lassen County.

#### **Recovery**

- On 07/19/21, Plumas County staff will be meeting with Cal OES Recovery staff and begin the damage assessment process on a day to be determined the week of 07/19/21..

# FIRE ACTIVITY

## Cal OES INLAND REGION (Continued)

### Tamarack, Vegetation Fire, Alpine County (Continued)

#### LEMA

- Command post evacuated
- Per State Parks, the fire has expanded and the previous ICP which was located at Fire Station 91 on Hwy. 89 in the town of Woodfords, has been relocated to the following: Douglas High School, 1670 Hwy 88, Minden, NV.

#### Critical Infrastructure

- Power outages have impacted Markleeville and the EOC's ability to utilize the internet for email communications and public messaging via social media and the county website.
  - On 7/19/2021, County's email is back in service. However, their main server is still down.
- Markleeville Water Company is a non-profit agency. As of 7/18/2021, water plant is still intact and the tanks did not burn. The power poles to the plant, however, did burn. They will need generators to run the pumps. Musser and Jarvis watershed has been impacted so they cannot treat surface water currently. Most likely this will be the case for a while. They are producing water from their two (2) wells, however. State Water Boards Division of Drinking Water has been notified.
  - The water company is coordinating with State Water Boards, Drinking Water Division, to discuss options for power generation for the pumps before repopulations occurs.
  - As of 1500 hrs on 7/19, Water company advised they obtained a generator from another water agency and it is being delivered on 07/19/21.
    - Surface water has been impacted, but they are producing water from their two wells. There are no requests for assistance at this time.
- There is a threat to the Hawkins Peak radio tower in Alpine County. This serve radio communications for all Alpine County law enforcement and Douglas County, NV (including CHP, State Parks, and fire agencies). A request for structure protection was made by Alpine Sheriff to USFS on 07/19/21.

#### Missions

- **2021-INL-67125 – Tamarack Fire.** Alpine County SO requests OASIS and a Verizon COW/COLT to assist for phones and internet lines being burned. Units are needed in order to communicate effectively.
  - A MIGU is on-scene
  - TACCOM working with Frontier Communications to install DSL lines in the Alpine EOC.
  - CUEA is working on COW/COLT. Verizon is coordinating a COW with the Alpine Sheriff's Office.
- **2021-LAW-67219 replaces 67213 - (67219 is under June-July Fires- Tamarack Fire):** New Mission number for LEMA request from Alpine County SO to EDSO- Per EDSO at Alpine Co. # WEATHER OF CONCERN

## NORTHERN CALIFORNIA

- Red Flag Warning remains in effect Monday and Tuesday from 1400-2000 hours for strong gusty wind and low RH for portions of Modoc County.
- Fire Weather Watch in effect on Wednesday afternoon-evening for portions of Modoc County.

## SOUTHERN CALIFORNIA

- Flash Flood Watch issued for Monday noon-2000 hours for the Eastern Sierra Slopes and White Mountains of Inyo County.
- Thunderstorms will develop Monday, afternoon quickly moving northward and expanding in coverage with the greatest chances over Mono County. More isolated storms are likely around the Tahoe regions and far northeast California.
  - These storms will be rather wet, bringing flash flood concerns for recent burn scars and steep terrain if storms form in those areas. Stronger storms are possible with a myriad of impacts including gusty and erratic outflow winds, hail, and frequent lightning, in addition to the localized heavy rainfall.

# **WEATHER KEY POINTS**

**07/19/21 - 07/25/21**

## **Monday**

- Elevated to locally critical fire weather conditions are possible in northern California today, both due to gusty winds and low relative humidity, as well as isolated dry thunderstorms which could lead to new fire starts.
  - The threat of new fire starts due to dry thunderstorms has decreased significantly compared to Sunday, but has not been eliminated entirely
- Across the southern half of the state, thunderstorms are expected to be wetter, and a few storms could produce heavy rainfall and local flash flooding
- Low to moderate heat impacts will continue across Inland and Southern Regions, with most temperatures only a few degrees above normal for mid-July

## **Tuesday-Sunday**

- Critical fire weather conditions could continue Tuesday in northeastern California due to strong gusty winds and low relative humidity
- A decrease in thunderstorm activity is expected for Tuesday and Wednesday, with any storms expected to be isolated in nature and primarily over the Sierra and Southern Region mountains
  - Additional moisture could potentially move into the state late in the week or over the weekend, and bring more scattered coverage of showers and thunderstorms
- Fire weather conditions will remain elevated through much of the week, with dry conditions continuing in most locations and locally breezy winds possible, especially in the mountains and foothills
- Low to moderate heat risk impacts will continue across primarily inland portions of Southern Region, with a bit of a cooling trend expected for the end of the week
